HSC RESULTS 2019

## 8th in State

**REDDAM**  
House

Dear Reddam House Community,

I'm sure you will join with me in congratulating the HSC Class of 2019 and their teachers on their exceptional results, which have placed them 8th in the State.

Part of Daniel Gilerman's speech at the Year 12 Valedictory perfectly sums up my message to the Year 12 Cohort of 2019,

"Regardless, of how we perform this year, please remember that your life is not going to be defined by your ATAR. We will all leave school with a piece of paper that will be quickly forgotten. What will actually last, are the memories and experiences that we have all shared through our schooling journey.

There are always teachers and parents that say "Year 12 is best tackled as a team." But that doesn't sit right with me. The truth of the matter is that we didn't tackle this year as a team. The support, the care, the collaboration and respect that we as students showed each other throughout the year isn't characterised by a team. Its characterised by a family.

To the 2019 cohort, good luck and here's to our unique, weird, little family, I wouldn't change it for the world."

Year 12 Class of 2019 you deserve your banner.

**TO THE REDDAM HOUSE HSC CLASS of 2019:**

Congratulations on these wonderful results, we are very proud of each one of you. They are a testament to your work ethic and commitment to the academic program, which you have shown throughout the course of your outstanding progress through Reddam House. Not only are you great scholars but you have become great people who leave behind a legacy to which future generations will aspire.

As you move through the coming months and years, I remind you of the four L's I suggested to you at your Valedictory.

I hope that you will continue to learn: that discovery and exploration will lead you to a deeper understanding of the world, its people and of yourself. The richness and variety of experiences which await you are endless. Revel in the complexities of human relationships. Stretch your mind. Become an interesting contributor to discussions, with a rich and varied range of interests. What the world needs more of are individuals who are broad-minded.

I hope that you will remind yourself to leave: to leave the safe confines of what you know. To shake yourself out of your comfort zones and to embrace change. I love the quote that says that, "Man cannot discover new oceans unless he has the courage to lose sight of the shore." This epitomises what I hope for in your lives. And I hope that you will continue to love: yes, to love those closest to you but also to love those who hold opposing views to your own. To spread hope, joy and optimism wherever you are, for in doing so you will be sowing the seeds of a brighter future for our world.

And finally: LIVE. Live fully and extravagantly. When you wake each day let it be with the intention of packing as much as you can into that day. Treasure the moments of your past but even more so create a future which is rich with possibility. As George Bernard Shaw said, "Life isn't about finding yourself. Life is about creating yourself."

Your teachers and I have thoroughly enjoyed the privilege of journeying with you during the past six years and we will continue to take an interest in your progress as you move on from here. Yes, we will miss your exuberant spirits, but we send you out expectantly, knowing that you are ready to create a future for yourselves which will be rich with experiences and enhanced with deepening relationships.

It may be that you too will say one day, as Winnie the Pooh did, "We didn't realise we were making memories, we were just having fun."

Goodbye and good luck

**Dave Pitcairn**
